Learn practical and cost-effective ways to control erosion on your property!

Topics include

- ✓ How to reduce soil loss during extreme weather events
- ✓ Surveying contour banks and whoa boys
- ✓ Identifying and understanding your soils types
- ✓ How to plan property infrastructure to reduce erosion

Guest Speaker - Darryl Hill

Darryl Hill is highly regarded around Australia for his practical approach and expertise using graders and other machinery to achieve soil conservation outcomes. With over 40 years study and on-ground experience, Darryl's teachings are aimed at achieving safe, effective and low-maintenance construction.

Invite Darryl to your place!

We are seeking expressions of interest from landholders keen to have Darryl on their property for a mentoring day. Facilitated by Darryl participants will put their skills into action. When: 9 or 10 March 2020. Email Ellie Carter to register your interest.

This event is supported by Fitzroy Basin Association Inc. through funding from the Australian Government's National Landcare Program.
